A resolution was adopted at the meeting of the city council last night which will be sent to the Army Air Base board at Washington, urging the selection of Richmond as the site of the new base.

Forty-four and a half percent of the registered vote of the city went to the polls at the primary election held yesterday, and determined who shall appear on the ballot at the final election to be held May 13.

The order in which the candidates stood at the completion of the tally last evening is shown by the above table. In the long term contest Edwin B. Lowery and Harry O. Watson were eliminated, and in the short term contest Bernice McCormick and Chris Brown were shut out.

The total number of votes polled at the election was 3981, and there were several surprises when the votes were tabulated.

All of the three incumbents qualified, with Hinkley leading the field, followed by Black, Johnson, Martin, Meyer and Axtell followed in the order named.

The surprising feature of the result was the remarkable strength developed by Walter Johnson and Russell Meyer, both new men in the political field.

In the short term contest Imbach polled 1530 votes and Winchcole 1203, and these two candidates will be the contenders in the finals.

The complete vote of the city, precinct by precinct will be found in another column of today's issue.

Stauffer Asks Fire Hydrant

The Stauffer Chemical company last night petitioned the city council for the installation of an additional hydrant in the Stege factory district.

It stated that the East Bay Municipal Utility district was now changing the water mains in that section from six to twelve inch, and asked that a hydrant be located on Forty-seventh street opposite the plant of the Stauffer Chemical company.

The petition was referred to the fire and water committee.

Polk was charged with conspiracy and Murphy with violating the customs laws. Polk's home is in Nashville Tenn. The two men crossed the International boundary line from Nogales, Sonora, late today and surrendered to American officials.

Rezoning Asked For Rheem Ave.

At the meeting of the city council last night the application of J. H. L'Hondide to have Rheem avenue from Thirteenth street to San Pablo avenue, rezoned from residential to commercial, was referred to the city planning commission for one week.

AN EPOCHAL TRAGEDY

Regulations will be suggested to control air traffic, as a direct consequence of the needless sacrifice of lives at San Diego. Probably a flood of such suggestions will be forthcoming and some of them will be drastic and some fantastic.

The incident has led to sharp investigation. The offending pilot, whose monkey-shines led to a collision with a commercial plane plunging both machines to the ground in a welter of blood and death, is not where punishment can reach him, but his act will certainly cause rules to be laid down that will prevent or in a manner restrain others from following his example.

Aviation is becoming safer each day. Hardly a month goes by without science and engineering adding devices and practices which make flying safer. Both the airplanes involved in the San Diego accident were fundamentally safe and should have seen much more useful service, except for the one pilot's indiscretion. Human conduct must be improved so as to give the airplane all the security and prestige it deserves.

"THAT'S NO LADY"

A peculiarity of the repressed psychology of the Anglo Saxon lay back of the nonsensical story the other day of the movie extras who could not enact an impassioned scene because they were married.

A Latin similarly situated, would have had no difficulty in working up a fair frenzy of ardor for the lady, even though momentarily the marital relations might have been stained. People of that blood and temperament do not have the queer barrier in their natures that dictates a stolid face and a cool demeanor in public. Husbands in America are not lacking in affection. They do not regard themselves or their wives as sticks. But there has come down to us through ages of British impassivity a dictum of unemotionalism in public. They say that a Briton would rather take a licking than display what he feels for the edification of onlookers. The warmth of nature is not lacking, though.

WE WANT BLOOD!

The place on the front page set aside for the Mexican revolution has been occupied by disarmament and reparations and the Colorado river and Judge Hardy and Hoover's law enforcement speech for several days. The reason is that the rebellion has been unproductive of armed clashes during the interim of invasion of Sonora.

Unless and until the rebels and federals get together in a nice bloody battle, they cannot hope to regain their favored position in the limelight. Sometimes it has seemed that the movement of Mr. Escobar et al has diminished so in force that there will be a conclusive meeting of the factions. If that is true the affair that started early in March will pass almost unnoticed into history.

Things are getting a little better for father in some ways. For instance they used to blame him for spilling ashes on the parlor rug and now they can't tell whether he did it or ma did it.

The statesmen over in Europe seem to have a great deal of trouble in adjusting the reparations. Our guess is that they will wind up by putting it on Uncle Sam's charge account.

One of the co-ed colleges forbids the boy and girl students to speak to each other on the campus. Want to encourage note-writing?

Men who get married always drop out of the limelight. For instance, what has become of Gene Tunney?

Three Cockett Men Injured In Hitrun Accident

MARTINEZ, April 29.—Three Cockett men were injured in an automobile collision near Vallejo yesterday and seven persons were hurt in accidents at Martinez and Pittsburg.

D. R. Seltman, Edward Frank and Guy Halsehan, employees of the Pacific Telephone and Telegraph company at Cockett, were injured when the car in which they were riding was struck by a speeding automobile. The driver of the speeding machine kept on his way. Frank suffered a dislocated right shoulder, broken ribs and internal injuries necessitating hospital treatment. The two others were able to return to their homes after emergency treatment.

Four persons are in the county hospital here undergoing treatment for injuries sustained when two machines crashed head on in the highway subway near Pittsburg.

James Campbell, 60, of San Leandro, L. M. Rel, 35 of Rio Vista, his wife, Mrs. Aurora Rel and son, Raffio Rel, 3 received lacerations and bruises. Rel and Campbell were drivers of the two automobiles.

Mrs. J. S. Rice, of 131 Albion avenue, San Francisco, and her two sons, Scott L. and John D. were removed to their homes today following treatment for lacerations sustained last night in an automobile collision here. Cars driven by J. S. Rice, husband and father and A. E. Jacobson of Hayward, crashed at Green and Las Juntas streets, virtually demolishing Rice's machine.

The messenger, making collections from depositors on his route, had just emerged from a store and was walking toward his automobile to drive back to the bank when the bandit accosted him. "Get into your car, put your hands on the wheel and keep your mouth shut," Koelman was ordered. He felt the muzzle of a revolver pressed against his side. On the floor in the rear of the sedan reposed a leather satchel containing the messenger's collections. The bandit placed this in his lap.

He told Koelman to keep his eyes to the front and at the same time turned a rear-vision mirror so that Koelman could not see through it. This led police to believe that an accomplice might have been following in another automobile. At his captor's direction the bank messenger drove about ten blocks and when forced to the street made a telephone report.

JOY RIDE ENDS IN COUNTY JAIL

MARTINEZ, April 29.—A joy ride that started out to be a wild party ended in two youths being jailed here and two young Concord girls being sent home to their parents for reprimand.

James Lewis, 22, Concord machine hunter, and Phil West, 20, Pittsburg prize fighter, were jailed when motorists complained to Traffic Officer E. P. Keeffe in Walnut Creek that the automobile in which the two youths and two girls were riding was being driven in a dangerous manner.

Keeffe stated that he followed the car for two miles before he could pass and halt the car. West is said to have offered to give a bottle but later cooled down. A half-filled jug of wine was found in the car, according to Keeffe.

Lewis was fined \$100 by Justice of the Peace George O. Duncan on a charge of reckless driving and was assessed \$25 on a charge of disturbing the peace. In lieu of the fines, both are in the county jail.

Lone Bandit Robs, Kidnaps Bank Attache

LOS ANGELES, April 29.—(U.P.)—A bandit who had neither mask nor visible assistance drove calmly through the busy downtown district with a bank messenger as an unwilling chauffeur today before making his escape with \$12,000 in cash.

The robber kidnaped A. C. Koelman, Seaboard National Bank messenger as the latter emerged from a store on crowded South Flower street. He forced Koelman to drive him through the business district by a circuitous route, then ejected him from the bank car and drove away.

The messenger, making collections from depositors on his route, had just emerged from a store and was walking toward his automobile to drive back to the bank when the bandit accosted him. "Get into your car, put your hands on the wheel and keep your mouth shut," Koelman was ordered. He felt the muzzle of a revolver pressed against his side. SOLONS OPPOSE TEXTILE MILLS INVESTIGATION

WASHINGTON, April 29.—(U.P.)—The move by Senator Wheeler, Democratic of Montana, for a thorough investigation into the southern textile industry, now attacked by labor disunion, has turned attention upon the new industrial south and the problems it faces.

Wheeler introduced a resolution today which would authorize an investigation by the senate committee on commerce into working conditions of textile mills in North and South Carolina and Tennessee.

But the move, which the textile industry has opposed, has been met by a counter move by the textile industry, which has introduced a resolution to the effect that the textile industry is the beneficiary of the highest tariff protection granted any industry in the United States and is still appealing for more.

Wheeler, who conducted the investigation of former Attorney General Harry M. Daugherty, is backed by the American Federation of Labor, which recently began attempts to organize southern textile workers. It is sponsoring the investigation, immediately provoked hostility from the two North Carolina senators, Simmons and Overman, who will seek to block it. They expect support from other southern senators. Indications today were they would be successful in preventing the proposed inquiry.

RICHMOND OR--GERMAN YOUTH MAKES IT WITH HELP OF TAXI

When Fred Henze, late of West, fallen Germany, but now a citizen of Richmond, starts out to go places and do things, he reaches his objective, especially if that place happens to be Richmond which has been described as the mecca of ambitious young men who are not exactly content with conditions in their fatherland.

Attracted to Richmond by the glowing picture painted by his cousin, Mrs. E. Williams, 162 Santa Fe avenue, Henze started out. To avoid difficulty he bought a ticket direct to his destination from his home in Germany. Through some misunderstanding the agent who sold him the ticket made it out to Stockton in place of Richmond, however.

After an interesting trip across the continent Henze arrived in Stockton Sunday morning. He looked about for relatives to greet him. There were none on hand for they were busy scanning the faces of those who alighted from trains at the Richmond station.

But Henze was Richmond bound. Unable to speak English he hailed a taxi and then through the assistance of a German-English dictionary made the driver understand that he wanted to go to 162 Santa Fe avenue, Richmond.

The driver amazed at the long ride ahead, however, accommodated his fare and started for this city. Arrived here the driver demanded \$20 for his fare. Henze may not be able to speak the language of this country but he certainly understands the ways of taxi-drivers. He took a look at the meter and handed the taxi-driver \$45 insisting that was all he needed for the ride.

The last seen of the taxi-driver was headed for Stockton, muttering something about "Henze should certainly be able to make a success of life in his newly adopted country."

SYMPATHY FOR CRIMINALS SCORED

CHICAGO, April 29.—(U.P.)—Sympathy for a rat is opportune only when he is in a trap where he will behave and likewise we should feel sorry for criminals only when they are confined in jail cells, State's Attorney John A. Swanson told a gathering of ministers here today.

The prosecutor's speech was made in answer to the critics of his five month's administration of the office he took over on promise to "wipe out bootlegging, racketeering and crime in Chicago." Too much sympathy for criminals encourages crime, he said.

"Youth," he declared, "is the outstanding contributor to our law law of law and order, for these children are suffering from the lack of a lesson they were never taught at home—respect for authority. Probably 80 percent of offenders and felons today are under 25 years of age."

Swanson said that too many persons are getting soft hearted and that their philosophical ideas are encouraging rather than deterring crime. He disagreed with scientists who claim that the criminal is "not bad but sick."

"We as a people are getting soft," he said. "Softness and philosophical, sentimental nonsense often are behind not only law breaking but public condoning of crimes after they have been committed."

Sorry for Yeggs
"Concern for the criminal, rather than concern for the society he had defied, clamor for saving him rather than the law, emphasis upon the tragedy of his fate instead of his victim's are common examples of this soft thinking."

"Let us be sorry for criminals, yes. But as we feel sorry for a mad dog, we don't arbitrate with him. We can be sorry for a rat but the trap is the only place he will behave."

Swanson announced that establishment three weeks ago of a felony court had eliminated long delays in trying such cases and predicted that the system would prove effective in his war against crime.

NEW BUILDING, 380 FEET HIGH, TO HOUSE SHELL HEADQUARTERS

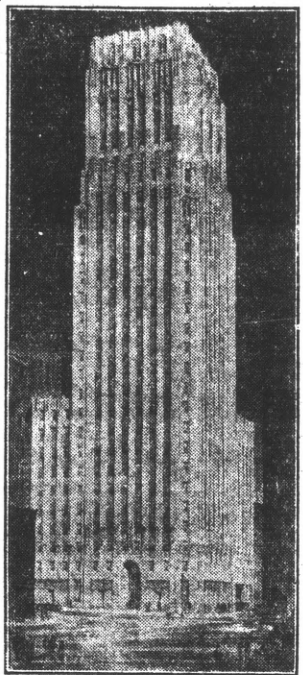

San Francisco.—Another great forward step in the development of the West was made public here today with the announcement of plans for the new 380-foot skyscraper headquarters of the Shell Oil Company. Representing an investment of \$3,000,000, the new structure will be one of America's most modern buildings, both in design and in equipment. It will have 23 stories, the third highest building in San Francisco.

The Shell Building should be ready for occupancy on May 1, 1930. From it will be directed the extensive exploration, production, refining and marketing activities of the newly organized Shell Development Company and Shell Chemical Company. It will be Pacific Coast headquarters for manufacture and distribution of the complete Shell products line—Shell 400, the "dry" gas for motorists, Shell Motor Oil that forms no hard carbon, Shell Aviation Gasoline, Shell household specialties, Shell mill lubricants, and Shell fuels of various kinds.

Work of demolishing five brick buildings on the site at Bush and Battery Streets already under way. The Bush-Battery corner is a commanding location. It is directly behind the square in which the Mechanic's Monument is set on Market Street at the head of First Street, only six blocks from the Ferry Building and conveniently central to the financial, insurance and transportation office districts. The greater portion of the Shell frontage on two streets, 117 feet six inches on Bush and 137 feet six inches on Battery, will have more than 200 feet of clear space in a southeasterly direction receiving direct sunlight all day.

The design of the building will be a modern adaptation of the Gothic, with clearly defined vertical lines to accent the height, which is the present trend in many of America's finest buildings. Flood lighting will be used to bring out the beauty of the building at night. Construction will be of steel and reinforced concrete of the most modern and fireproof type.

A garage to accommodate 175 automobiles will be one of the building's many conveniences.

AUTHORESS TO FACE TEXAS CHARGES

SAN FRANCISCO, April 29.—UP—A fight against removal to Texas where she has been indicted on a charge of using the mail to defraud was abandoned by Elizabeth Murray, nationally known for literary and educational activities, here today.

A warrant for removal, formally in all federal extradition cases, was signed by Federal Judge Frank H. Kerrigan after she had removed all objections.

Miss Murray, members of a family that has gained prominence from members who became statesmen, announced opposition to signing of the warrant of removal when she appeared in court. Then she reversed her stand and agreed to let officers take her to Amarillo, Texas.

The indictment against her charges that she sold a life membership in a literary society she founded for \$1000 through "false representation."

She appeared before a United States commissioner here Friday and he ordered the extradition. Miss Murray has been in jail here for 10 days due to inability to raise \$2500 bail and will probably remain in her local cell for several more days while arrangements are made for a matron to accompany her on the trip south.

boundary line.

NOGALES, Sonora, Mex., April 29.—UP—With the Mexican uprising facing collapse, General Fausto Topete, rebellious governor of Sonora, late today rushed to the international boundary line and ordered Mexican customs and immigration officials to shoot all rebel officers who attempt to cross into the United States.

The order was issued just after Pat Murphy, an American flying for the rebels, had broken loose from Mexican guards and fled into Arizona. Another American flier, Captain C. H. Polk, of Nashville, Tenn., had deserted the rebels about the same time.

Murphy and Polk were placed under arrest by American customs officers, Polk on a charge of conspiracy and Murphy for violation of the customs laws.

Army Deserting
General Topete has striven desperately to keep the revolutionary army of western Sonora intact. He massed 7000 men at San Blas Sinola, then retreated to Navajoa, Sonora, and later from there as the federals approached.

One of the most touching scenes of the present uprising was enacted in a Nogales, Sonora, hotel when General Topete met his wife.

Sonora Topete pleaded with her husband to cross into Arizona and go to Los Angeles. The general refused to accede to his wife's request and assured her that he was in no immediate danger.

Both were in tears as they parted.

Cause Lost
Close observers of the revolt believed today that most of the insurgent leaders believe the cause is lost. Many rebel officials have made plans to flee into the United States, among them J. G. Lizarraga, appointed provisional governor of Sonora while Governor Hector Alameda and Eduardo Garcia, 15 members of the Sonora state legislature house of deputies and Governor Lizarraga visited the United States consulate today.

General Topete came here by automobile, accompanied by only three members of his staff. He left his troops at Ortiz, Hermosillo and other points. It was reported here that General Miguel Guerrero had surrendered to federals at Ortiz with 500 men, 18 machine guns, a 75 millimeter gun and one million rounds of ammunition.

Sonora Taken
Another column of the force with which General Topete retreated from Navajoa, 2000 men under General Rabatte, was reported to have been cut off from the main west coast army. The force was said to be at Chio, Sinola, with their capture by federals expected.

Unofficial advices received here said that federals under General Juan Almazan had entered Sonora from Chihuahua through Pulpito Pass and were moving on Agua Prieta. General Almazan sent two columns across the Sierra Madre mountains from Chihuahua to attack the rebels, and after defeating them, advanced, it was said.

REBELS CHIEF FLEES
ADVANCE OF ARMY

MEXICO CITY, April 29.—UP—The victorious advance of federal armies on rebels in the state of Sonora continued tonight. Gen. Juan Almazan's advance guard having passed through El Pulpito canyon without meeting opposition, according to a government announcement.

The leading troops in Almazan's column are ready to attack Agua Prieta, the presidential palace was informed. Border reports to the government said rebel leaders were fleeing northward.

A dispatch to La Prensa from Tepic, Nayarit, said loyalists had successfully resisted two attacks of 150 "Christians" or rebel troops at Santa Maria del Oro. No details were given.

General Almazan reported that rebels had retreated before his advance through Pulpito canyon. The insurgents fled during the night without offering resistance, he said.

General Rodriguez said the rebel chief had turned over 500 men, 1,000,000 cartridges, one cannon and 18 machine guns. Gen. Fausto Topete former governor of Sonora and a rebel leader, was reported fleeing towards Nogales, on the American border, with a small group of men.

Consular agents informed the government that Gen. J. Gonzales Escobar, rebel chief, and former deputy Marriague were fleeing in a one car train towards Agua Prieta. The reports said it was believed they would take an airplane there for Douglas, Ariz., or El Paso, to place themselves at the disposal of United States officials.

JUDGE HARDY AGAIN ON BENCH

LOS ANGELES, April 29.—UP—The courtroom of Superior Judge Carlos S. Hardy took on a festive appearance today as the aged jurist made his first appearance on the bench since impeachment proceedings were instituted against him over a \$2500 check he accepted from Angelus Temario.

Judge Hardy stood behind the bar and thanked the friends who remained loyal to him before the senate cleared his name.

"This is a momentous day for me," he said, visibly moved. "I have little to say except to thank my friends for their loyalty during the past unfortunate months and this manifestation of it. I appreciate it more than I can say."

A profusion of flowers had been placed in the courtroom by friends of the jurist, but after his brief words of thanks he swung into a business like attitude, taking up a case of two men accused of holding up a "dice game."

While Almer Semple McPherson was said to have made no direct comment in her sermon Sunday regarding the attempt to impeach Judge Hardy by aiding in her fight against doubters of her ability, it was known that she led three rousing cheers for the white-haired jurist.

She discovered his bed empty and the window open. From the window she saw his body below. Articles in the window had been moved and the screen had been opened. Sheriff Byers had put on a dressing gown after the nurse left the room.

Relatives said they knew of no reason for him to have taken his own life. He was well on the way to recovery and would have returned to his home shortly, hospital attendants said. An inquest will be held Tuesday.

Mystery Of Day Off For Police Solved By Press

Postmen are alleged to take a walk on their day off; firemen clean out the furnace in the basement of their homes while auto mechanics spend their holiday tinkering with their machines. But what policemen do on their day off has always been a mystery—that is it was a mystery until Saturday when the press, after long weary hours of work, solved the mystery.

The police spend their day off playing baseball! That is the Richmond police department spends its off days this way.

Saturday a team led by Capt. L. E. Jones won a victory over a team captained by Frank Fray by a score of 5 to 4.

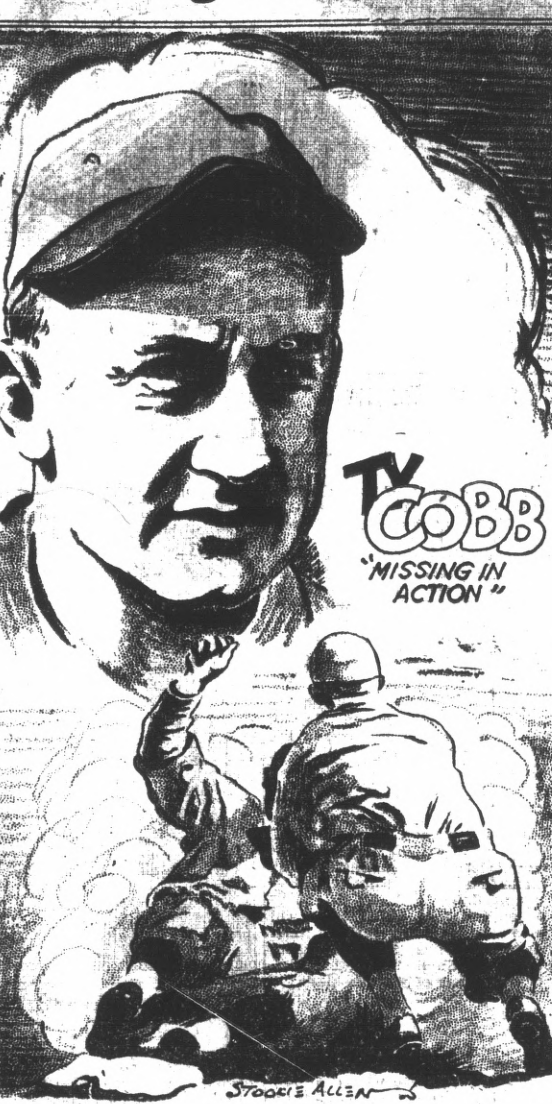

Logan and Grimes formed the battery for the winners while Arbuckle pitched for the losers and Fray caught.

Track Stars To Meet Local Alumni

The Richmond high school track stars are preparing for a match with the school alumni trackmen here Friday after school. Among the graduates are Bob Van Fleet, member of the California Frosh squad; Charlie Baldwin, football and basketball star who is attending the University of California; and others.

Among The Absent

Ty Cobb, baseball's most illustrious son, is missing from the ranks as the major league teams swing into their dash for the flags. The Georgia Peach, who for over two decades was the terror of almost every pitcher that faced him, has turned gentleman farmer.

Although gone, he has left plenty of records for the boys to shoot at. For instance: Games played, 3,033; hits, 4,191; stolen bases, 892, and his unbelievable record of hitting over the three hundred mark for 23 years is a record that should stand forever. He has the best all-time batting average of any player that ever donned a suit—356.

San Pablo Nine Beats Motors

The San Pablans downed the Motors nine of Richmond in 13 innings here Sunday by a score of 8 to 7. Martin pitched for the Pablans and allowed nine hits while Mattos allowed the Motors 22 hits.

CHRONIC CASE OF SORE LEG; LIMB TURNED BLACK; AMPUTATION FORESTALL-ED BY FONG WAN
HERB July 10, 1928.
To Whom It May Concern: Oakland, Cal.
About 15 years ago I underwent an operation that left my leg in an ulcerated condition from which I suffered a great deal. I treated it with many healers, but got no relief. One wanted to operate on the leg; another wanted to amputate it.
About two and one-half years ago my leg turned black and I was not able to wear a shoe. A friend told me about Fong Wan, so I consulted him. After following his instructions as to diet and taking the herbs that he compounded now after eleven months my leg is in normal condition, and I am in perfect health. MRS. MARY RUTH, 66 Monte Vista ave., Oakland, Cal.

Examinations Of Children Start Monday

Annual pre-school examination tests for all children in the city who expect to enter school in the fall will be made next week by city and health authorities in cooperation with members of the Parent-Teacher associations.

Children will be examined free and a report given to the parents on caring any defects the child may have. A great effort is being made to keep children from being handicapped by their school work by physical defects.

Mrs. Anna Willis of the school nursing department will cooperate with doctors of the city and the Richmond Health Center, in carrying out these tests. Members of the Parent-Teacher organization are particularly interested in the idea and are striving to aid in every way possible.

The tests will be made at the schools instead of in the Health Center as they were last year, and will be held from 9 to 12 o'clock on the following schedule:

LAND GIVEN TO EL CERRITO COUNCIL

In a letter received from W. G. Needham, El Cerrito property owner, agreeing to donate a ten foot strip of land and pave the easterly half of Arlington boulevard between Seaside avenue and Cutting boulevard, the council of El Cerrito at its meeting Monday instructed the city attorney to prepare street opening proceedings for that portion of Arlington boulevard.

Street Commissioner Phil A. Lee reported that the police were patrolling the streets in the Berkeley Country Club Terrace tract and keeping heavy trucks off of the macadam streets.

Lee also reported that due to the opposition of changing the name of Stockton avenue to Terrace Drive that he would wait until he received a petition from those opposing the change before making his recommendation.

In order to protect the city from damage suits the council ordered that insurance policies be submitted by R. Conlon covering liability and property damage for the police motorcycles and automobiles and the street department automobiles and trucks.

Councilman Phil A. Lee reported that a new system of house numbering was being made and would be ready in a few weeks.
